## **Uprite Anchor Plate**

Part Number: Part Number: DC1241

Uprite Anchor Plates are required when your fixture exceeds height-to-depth ratio limits and for fixtures over 5' tall in certain seismic zones. The plates secure each Uprite to the floor using anchor bolts.

## **Product Details:**

- Use Anchor Plates when shelving unit exceeds height-to-depth ratio limits
- Accepts 1/4" or 3/8" diameter anchor bolts (not included)
- Holes are 7/16" diameter
- Required for shelving over 5' H in certain seismic zones
- Secures leveling leg to floor
